Prefabricated Installation

If you prefer not to build your own mailbox post, and would like to have someone install a pre-built post, contact the following Highlands contractor: Barry Mize (804) 931-1179

Construction Tips

- Build the mailbox out of the ground, it's much easier to paint and assemble.
- Use salt-treated wood for all components. It lasts longer than untreated wood.
- Use the galvanized screws/nails for assembly. Non-galvanized screws/nails will rust quickly.

Feedback

If something is not clear in this document please tell us. Contact the HCA Board through the Highlands website.

The Paint

The paint for the post can be obtained at the following locations:

Do It Best —Pleasants Hardware; request Highlands Mailbox color

Glidden —Home Depot; #16982- HISTORIC TAN

Behr Premium Plus —Home Depot; custom mix to SW6142 MACADAMIA

Sherwin Williams —Lowe's; SW6142 MACADAMIA

Sherwin Williams —Sherwin Williams store; SW6142 MACADAMIA

Mailbox

Mailbox Manufacturer & Model

The mailbox is made by the Solar Group. Pleasant's also carries the mailbox.

Mailbox Mounting

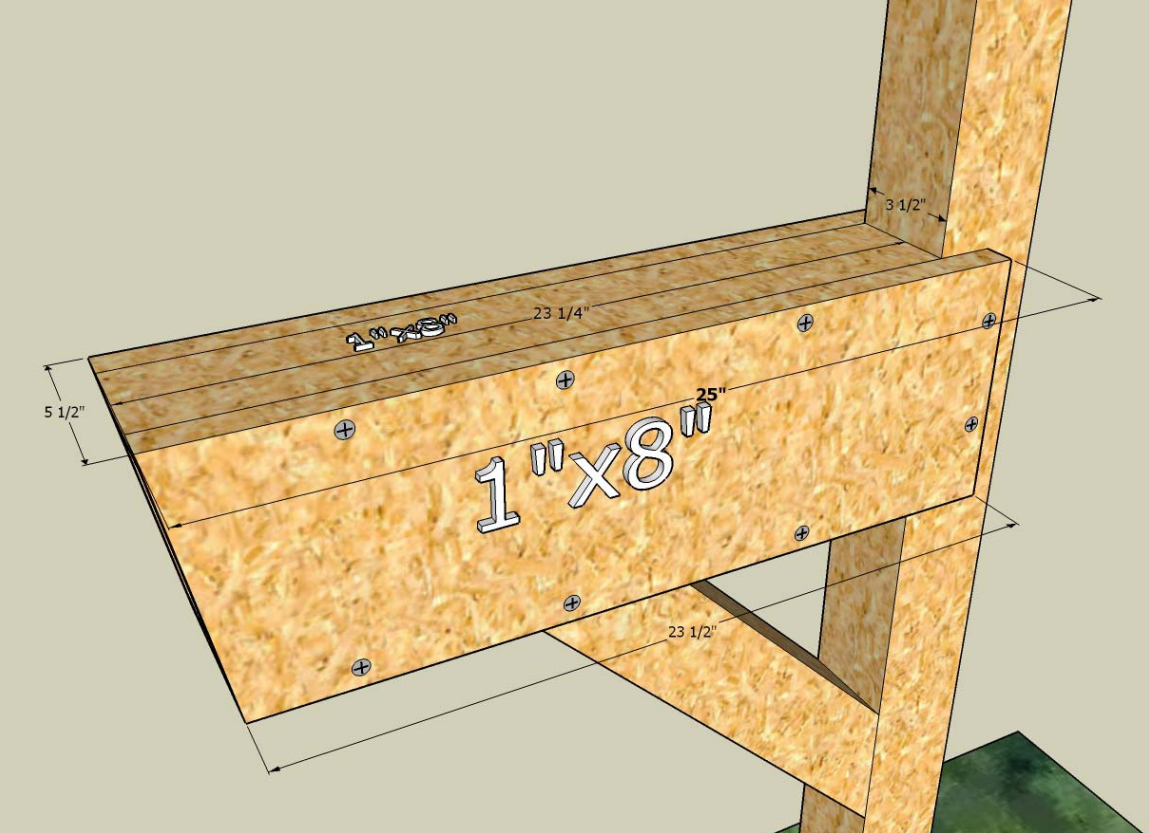

You may choose any mailbox mounting method. An easy and cost effective method is to nail 2 pieces of wood on top of the under slot that spans the width of the mailbox underside.
